Experience

April 2021 – March 2023

US Foods, Albuquerque- Day Warehouse Forklift Operator-Lead

- Led pre-shift meetings to address safety concerns from the previous day.
- Adjusted task assignments based on daily case counts to optimize workload.
- Analyzed productivity barriers from previous days and devised operational enhancements.
- Actively involved in various operations from receiving to managing divers.
- Demonstrated commitment to team's success through a hands-on approach.
- Prioritized transparency and optimization of individual skills.
- Made significant contributions to collective team success and efficiency.
- Managed the inbound scheduling to ensure timely and efficient operations.
- Supervised Capstone lumpers, an external service, ensuring they correctly broke down trailer loads to our warehouse standards.

- Ensured Capstone used unbroken pallets for product transfer and separation of damaged goods for return to the trailers.
- Maintained quality control by addressing mistakes directly and instructing Capstone on corrections.
- Oversaw Capstone's performance, ensuring their service met our operational expectations.
- Liaised with the Capstone manager to address and resolve any issues.

May 2019 – April 2021

US Foods, Albuquerque- *Shipping/Receiving Clerk-Lead*

- Prepared inbound documents and allocated receiving doors for incoming drivers.
- Processed all purchase orders and ensured clearance by the end of each day.
- Managed the discrepancy report to address any mismatches or issues.
- Scheduled all backhauls, collaborating with the buying department; compiled weekly backhaul reports.
- Handled out-of-stock and damage claims to address any inventory issues.
- Conducted pre-shift meetings to facilitate team communication and workflow planning.

January 2019 - April 2019

US Foods, Albuquerque - *Receiver*

- Verified inbound product identification against invoices and receiving paperwork to ensure correct pack/size, quantity, product quality, and temperature, as well as pallet ti/hi.
- Checked temperatures of all inbound frozen and refrigerated products to meet food safety standards and RRE requirements, adhering to HACCP guidelines.
- Confirmed the quantity of each product, making sure the count aligns with the documentation. Reported any discrepancies for accurate inventory level adjustments in the system.

January 2016 - December 2018

US foods, Albuquerque - *Day Warehouse Forklift*

- Letdowns in each department; Cooler, Dry, and Freezer.
- Put-aways in each department, Cooler, Dry, and Freezer.
- Selected Will calls.
- PIR put-aways.
- Assisted with driver check-in for about a month, as per Joshua Robertson, the previous VP of Operations, before a permanent hire was made for the position.
- Supported other US Foods locations nationally with selection and forklifting operations, including sites in Topeka, Norcross, St. Louis, and Columbia, as part of the ICPM initiative.
